

# 582519 Scientific Writing for MSc in Computer Science: Seminars and MSc thesis

Lecture 6, 8.10.2013  
Tiina Niklander

HELSINKI YLIOPISTO  
Helsinki University of Technology  
Faculty of Science  
Department of Computer Science  
www.cs.helsinki.fi  
8.10.2013 1

## Last week's task: How did it go?

---

-- fill comments here --

What is the situation of your paper?

- finished,
- almost finished
- still under writing
- missing several pages
- only half-written
- just started
- not yet started

HELSINKI YLIOPISTO  
Helsinki University of Technology  
Faculty of Science  
Department of Computer Science  
www.cs.helsinki.fi  
8.10.2013 2

## Final check of your paper:

---

- Abstract
- ACM classification
- Table of content: page numbers
- Reference list layout
- Citations for references, no reference without citation
- Language: spell check
- Final read through (if corrections, read again)

HELSINKI YLIOPISTO  
Helsinki University of Technology  
Faculty of Science  
Department of Computer Science  
www.cs.helsinki.fi  
8.10.2013 3

## Practise steps towards MSc thesis

---

Step 1: Scientific writing  
writing with support of small team and TA

Steps 2 & 3: seminars  
Using and improving writing  
Oral presentation

Final step: MSc thesis  
Individual work about unique topic  
Discussion support from supervisor  
One (or two) draft feedback

HELSINKI YLIOPISTO  
Helsinki University of Technology  
Faculty of Science  
Department of Computer Science  
www.cs.helsinki.fi  
8.10.2013 4

## Seminars

---

- Learning objectives of a seminar:  
<http://www.cs.helsinki.fi/en/node/61694/matriisi>
- Two themes:
  - Written scientific communication
  - Oral scientific communication

HELSINKI YLIOPISTO  
Helsinki University of Technology  
Faculty of Science  
Department of Computer Science  
www.cs.helsinki.fi  
8.10.2013 5

## Seminar format

---

Duration: 2 periods, one whole term/semester  
Number of participants: 12 students

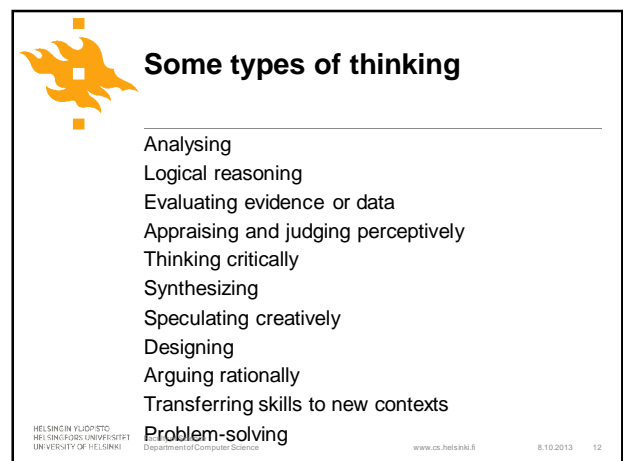

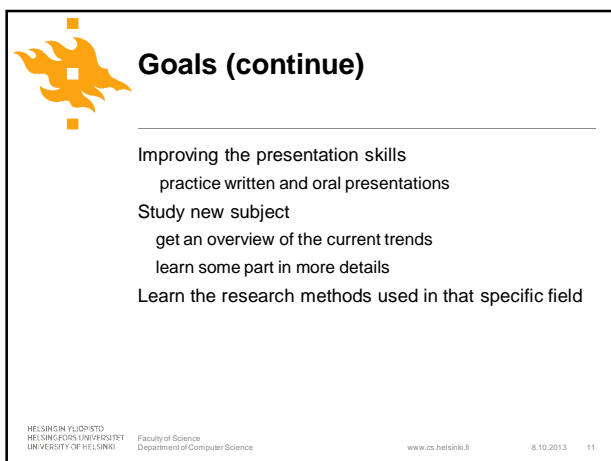

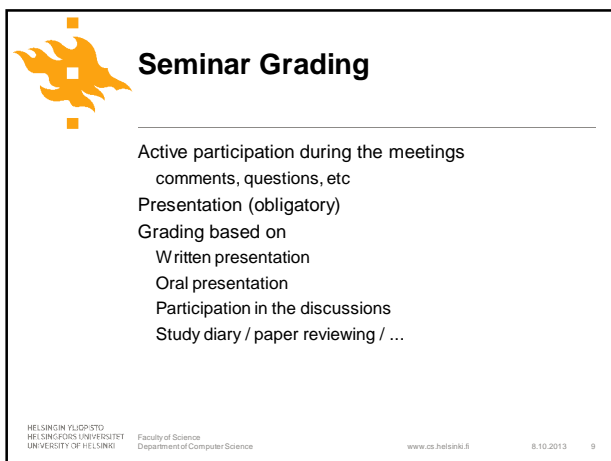

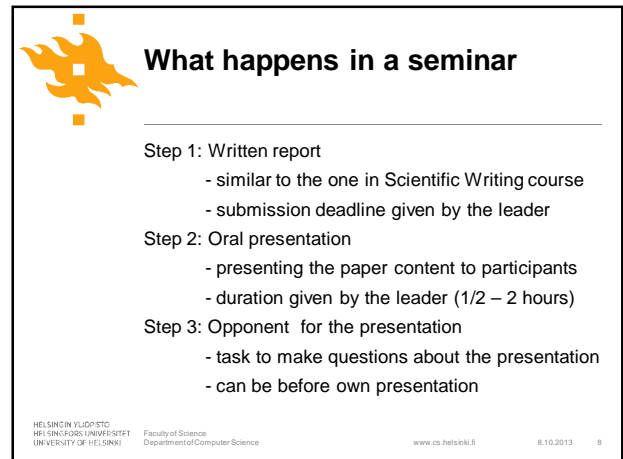

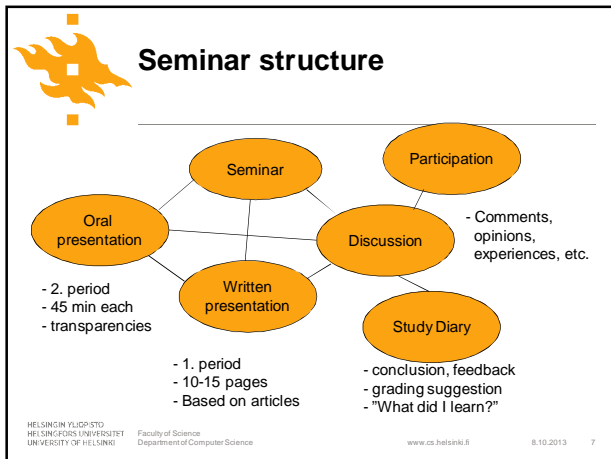

Application period for seminars:

- For Spring term seminars: early November
- For Fall term seminars: early May

- Teachers select students based on the applications

- suitability of background, progress of studies, ...

HELSINKI YLIOPISTO  
Helsinki University of Technology  
Faculty of Science  
Department of Computer Science  
www.cs.helsinki.fi  
8.10.2013 6

## What skills should the MSc thesis show?

Ability to manage a large theme systematically, with a defined goal and valuation scheme in mind

Independent work

Research steps

- Learning of the topic (search of information, critical reading)

- Formation of a research question (single line focus)

- Solution construction and evaluation

Coherent and complete written report (precise scientific argumentation and ease of understanding)

HELSINGIN YLIOPISTO  
HELSINGFORS UNIVERSITET  
UNIVERSITY OF HELSINKI

Faculty of Science  
Department of Computer Science

www.cs.helsinki.fi

8.10.2013

## What types of MSc theses there are?

Surveys

- Collection and critical evaluation of related works

Explorations

- Empirical approach, evaluation, construction of recommendations

Designs

- Small survey of related domains, combination of the findings to a design of a system, potentially construction, evaluation of the design

**Always base your knowledge on articles published on scientific forums**

HELSINGIN YLIOPISTO  
HELSINGFORS UNIVERSITET  
UNIVERSITY OF HELSINKI

Faculty of Science  
Department of Computer Science

www.cs.helsinki.fi

8.10.2013

## Scientific publications after graduation

- Journal articles
- Conference or workshop papers
- (Technical reports)

- PhD studies require some number of scientific publications to be done during the studies

- These will form the core of the thesis

HELSINGIN YLIOPISTO  
HELSINGFORS UNIVERSITET  
UNIVERSITY OF HELSINKI

Faculty of Science  
Department of Computer Science

www.cs.helsinki.fi

8.10.2013

15

## Publication process

- Different publishing schedules
  - Journal articles: several years from a manuscript to a published version
  - Conference or workshop articles: from few months to a year
- Different peer-reviewing processes
  - Level of refereeing (confidence on evaluation)
    - Journal, conference and workshop articles: reviewed by several objective referees
    - Technical reports and manuscripts: no peer review
  - At best, valuable feedback for authors

HELSINGIN YLIOPISTO  
HELSINGFORS UNIVERSITET  
UNIVERSITY OF HELSINKI

Faculty of Science  
Department of Computer Science

www.cs.helsinki.fi

8.10.2013

16

## Publication forum

- Intended publication forum may influence the contents and form of the text
  - Length of the text
  - Layout and structure of the text
  - Approach/perspective to be taken: theoretical or practical
- Authors should also take into account
  - the readers of the forum and their background knowledge
  - relevant work published on the same forum

HELSINGIN YLIOPISTO  
HELSINGFORS UNIVERSITET  
UNIVERSITY OF HELSINKI

Faculty of Science  
Department of Computer Science

www.cs.helsinki.fi

8.10.2013

17

## Questions and feedback session

- Now is your last chance to get answers to any unclear issues!
- Feedback: How to improve the course
- Remember to **fill the feedback form** for this course and all other courses as well – For every course during your studies!

18

## Internship 2014

( Use career services offered by Univ.)

- Your own responsibility – not organised by dept
- HIIT&dept offer some positions – application-based
- Companies announce positions, but accept open applications also
  - Helsingin sanomat (may be)
  - oikotie.fi
  - via personal connections
  - tko-äly rekry mailing list
  - bulletin board at department
- General information
  - guidetoworkinginfinland.fi
  - www.mol.fi/mol/en/index.jsp
  - www.tek.fi (Harjoittelupalkkasuosituks)
  - Unemployment funding requires voluntary membership in union or unemployment cash

HELSINGIN YLIOPISTO  
HELSINKI UNIVERSITY OF HELSINKI  
Faculty of Science  
Department of Computer Science  
www.cs.helsinki.fi  
8.10.2013 19

## Course exams and separate exams

Examination sessions:

- start sharp at the hour
- no bags near your
- turn of your mobile phone and put it in bag

You may have with you:

- pencils and rubber (and/or pens)
- small amount of snacks
- ID card (student ID is not official, but might be accepted)

HELSINGIN YLIOPISTO  
HELSINKI UNIVERSITY OF HELSINKI  
Faculty of Science  
Department of Computer Science  
www.cs.helsinki.fi  
8.10.2013 20

## Course exams and separate exams

Normally answers written to a 'concept paper' (folded A3-paper with grid)

- write name, student number, date, course name and your signature on every paper
- Start filling the folded paper as if it was a course book. (So first the cover, then turn open to left and fill left side, right side and finally the back cover)
- You can use multiple papers if necessary
- (On some courses, you might be asked to give answers to each question on separate sheet)

HELSINGIN YLIOPISTO  
HELSINKI UNIVERSITY OF HELSINKI  
Faculty of Science  
Department of Computer Science  
www.cs.helsinki.fi  
8.10.2013 21

## Answering

- Not just overview, but justifications and reasoning also
- Often questions require applying the knowledge, not just repeating
- Most courses: exercises give hints on the key points on the course
- A single right answer might not give you full points, if you have not explained how you reached the answer

HELSINGIN YLIOPISTO  
HELSINKI UNIVERSITY OF HELSINKI  
Faculty of Science  
Department of Computer Science  
www.cs.helsinki.fi  
8.10.2013 22

## Preparing for exam

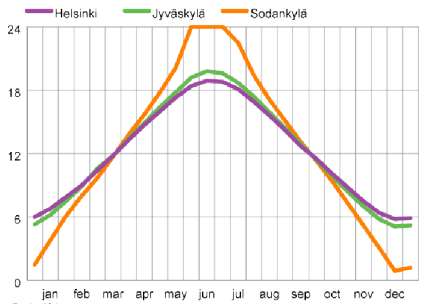

- Do the weekly exercises and relate them to the study goals of the course
- Understand the course content, both details and the 'big picture' – memorising is not enough for a master's
- Study the slides and the exercise questions
- read and learn the book (but not just memorizing!)
- When available look at the older exams

HELSINGIN YLIOPISTO  
HELSINKI UNIVERSITY OF HELSINKI  
Faculty of Science  
Department of Computer Science  
www.cs.helsinki.fi  
8.10.2013 23

## Length of day:

<http://en.ilmatieteenlaitos.fi/length-of-day>

HELSINGIN YLIOPISTO

8.10.2013 24

## Finnish Winter is coming

- October: A lot of rain, first snowstorms, no snow cover, but can be icy
- November: Very short days and cloud cover, a lot of rain or snow, or wet snow, or... usually in Helsinki no snow cover
- December: Very, very short days, snow or wet snow, snow cover in Finland, might be also in Helsinki/Espoo
- January: Days slightly longer, snow cover in Helsinki also. Gulf of Finland ice covered
- February: Nice winter days, sun shine and blue sky, maybe skating above sea
- March: Nice winter days. The snow starts melting
- April: Days longer than night, Snow melts, still some snowstorms
- May: Long days, no snow, green trees and grass

HELSINKI YLIOPISTO  
Helsinki University of Technology  
Faculty of Science  
Department of Computer Science  
www.cs.helsinki.fi  
8.10.2013 25

## Oral presentation

- Prepare
- Clear goal and message
- Not everything in the paper to the presentation
- Focus on key points
- Make transparencies or some other visual support

HELSINKI YLIOPISTO  
Helsinki University of Technology  
Faculty of Science  
Department of Computer Science  
www.cs.helsinki.fi  
8.10.2013 26

## Oral presentation: Transparencies

**key words**, no sentences, mistakes  
Figures, pictures  
Tables, lists  
Numbers (used in the presentation)  
**Examples**  
Do not overfill one page  
Avoid too small font size (this is 14). this is 18, this is 24, this is 12

HELSINKI YLIOPISTO  
Helsinki University of Technology  
Faculty of Science  
Department of Computer Science  
www.cs.helsinki.fi  
8.10.2013 27

## Font size

32 points : automatically offered by PowerPoint  
28 points  
24 points: smallest useable in Auditorium  
20 points  
18 points: smallest useable in any presentation (occasionally too small)  
16 points  
14 points  
12 points: Normal size in written papers  
10 points: A bit small even for printed reports

HELSINKI YLIOPISTO  
Helsinki University of Technology  
Faculty of Science  
Department of Computer Science  
www.cs.helsinki.fi  
8.10.2013 28

## Slide layout

Please, try to **avoid** full written sentences. They make the work for the audience very **difficult**. There is no time to follow the speech, because all the time and concentration goes to reading the slide.

This becomes even worse, if the presentation is directly read from the transparencies. There is no point in listening anymore. Also, the presenter eagerly uses very complex sentences that try to cover in one extremely long sentence most of the material without losing any details and facts.

HELSINKI YLIOPISTO  
Helsinki University of Technology  
Faculty of Science  
Department of Computer Science  
www.cs.helsinki.fi  
8.10.2013 29

## Example: Portable and handheld devices in a distributed system

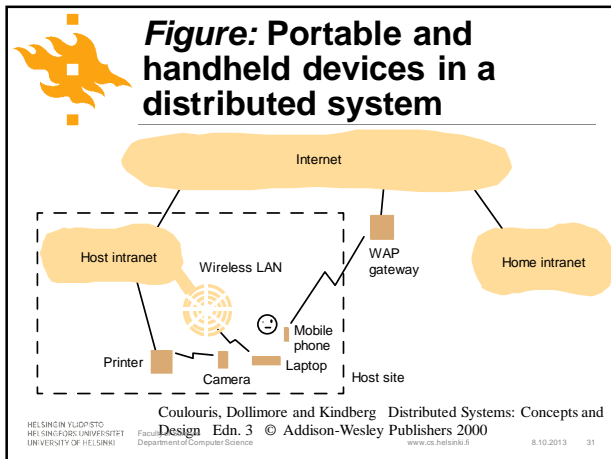

Devices  
Mobile phone  
Laptop  
Camera

Connection points  
WAP  
WLAN  
USB  
Intranet, Internet

*How to clarify?*

**Figure !**

HELSINKI YLIOPISTO  
Helsinki University of Technology  
Faculty of Science  
Department of Computer Science  
www.cs.helsinki.fi  
8.10.2013 30

**Oral presentation: speech**

Based on the transparencies  
Each item on the transparencies covered  
Nothing else is handled (except shortly)  
Other notes  
to remember facts, extensions  
presentation hints  
Use short sentences

HELSINKI YLIOPISTO  
HELSINKI UNIVERSITY OF TECHNOLOGY  
FACULTY OF SCIENCE  
DEPARTMENT OF COMPUTER SCIENCE  
www.cs.helsinki.fi  
8.10.2013 32

**Oral presentation: voice**

Clarity and strength  
avoid sitting  
speak to the furthest person  
Voice makes the structure  
Stressing  
– importance  
– new theme  
Pauses  
– new theme

HELSINKI YLIOPISTO  
HELSINKI UNIVERSITY OF TECHNOLOGY  
FACULTY OF SCIENCE  
DEPARTMENT OF COMPUTER SCIENCE  
www.cs.helsinki.fi  
8.10.2013 33

**Oral presentation: Other things**

Computer, transparencies, blackboard  
Notice the audience  
Movements  
*Hands*

**Practice, practice,**  
NEVER write down the whole oral presentation  
If uncertain, speak (and time) the whole presentation on your own or for a small audience

HELSINKI YLIOPISTO  
HELSINKI UNIVERSITY OF TECHNOLOGY  
FACULTY OF SCIENCE  
DEPARTMENT OF COMPUTER SCIENCE  
www.cs.helsinki.fi  
8.10.2013 34

**One last time:  
Examples of probing questions**

Does that always apply?  
How is that relevant?  
Can you give me an example?  
Is there an alternative viewpoint?  
How reliable is the evidence?  
How accurate is your description?  
You say it is  $x$ , which particular kind of  $x$ ?  
What's the underlying principle then?  
In what situation would this rule break down?  
What distinguishes the two cases?

HELSINKI YLIOPISTO
