Area	Topic	Points	Comment
Documentation		1	
Testing		6 (max 7)	cut-off at 7 points
	Self-contained testing	2	Tests report success/fail, not function results. No human interaction/checking required.
	Testing is "sufficient"	2	
	Unit(-like) testing	1	
	Reporting	1	Tests report info on failures.
	Bonus points for elegance of test driver and its implementation	1 – 2	added to the total for this area
Coding		2	
	Comments	1	
	Consistent Style/Clean/Readable	1	
Implementation		5 (max 7)	cut-off at 7 points
	Data-type operations	1	Default, copy, assignment, destructor. Only basic exception safety guarantee required.
	Minimum implementation	2	dynamic array, op[], push, pop, insert, erase, swap
	stream << and >> ops	1	
	Iterators	1	
	Additional ops/constructors	2	example: Additional constructors/type conversions, versions of basic operations
	Bonus: move semantics	1	added to the total for this area
	Bonus: Exceptions	1	added to the total for this area
	Bonus: Strong exception safety guarantee for some operation	1	added to the total for this area
Bonus	*Additional points awarded for features that are highly relevant but clearly beyond what was required*	1 – 3	Added to the sum of the totals of the areas
Total		14	*cut-off at 14 points, no matter how many bonus points awarded*
