Simulation parameters
Burn-in
Thinning
Iterations for each variable
Update strategy
Sequential
Random
Includes
Weighted update
Proposal distribution
Consists of
Proposal strategy
Blocking
Defined in a separate file
Default
Defined
Strategy
Initial values
Variable
1 .. *
Consists of
Random walk
Fixed proposal distribution
Belongs to
1
Block
*
1
Gibbs sampling
1
Metropolis-Hastings
Algorithm used
