Minutes

Present: Matti Johansson, Marko Moisio, Juha Saarelainen,
Minna Vasankari, Dan Patrick Doepel,
instructor Mika Karlstedt,
Absent: –

Topics:

- Resulting document of the requirement analysis stage will be reffered as requirement specification dockument
- Information about the computer science department and the names of RTD-Log group members should be added to the cover page of each document
- Primary, Transient, Mirror and Unit all begin with uppercase
- The draft version of the requirement specification document was viewed at the meeting
- Everyone should read trough the requirement specification document and make neccessary changes (to own writings).
- Goal is to have the requirement specification document ready on friday, reviewing it at the friday meeting and having it frozen on tuesday
- Minna outlines the contents of the planning document by friday
- The data-structure used for the index was decided to be a hash-table
- Log-records were decided to be implemented with a fixed-length

The next meeting is on friday 16.2. at 12:15.
