RTD-Log
20. meeting 23.3.01 12:15 - 14:00 in C455
Minutes

Present: Matti Johansson, Juha Saarelainen,
Marko Moisio, Dan Patrick Doepel,
instructor Mika Karlstedt,
Absent: Minna Vasankari

Topics:

- Version 2.0 of the planning document was reviewed.
- Size estimates for LSM & ISM are maybe a bit too small (there will probably be some stubs and their code should be included in the estimate)
- Index has changed on thursday night, after the document was frozen.
- The order of the modules in "testing plan" should be changed.
- Captions in pictures 2 & 3 should be swapped?
- Control Module takes care of the initializations.
- Control Module handles the state-information.
- Recovery Module should return Index_ready when appropriate.
- All modules should write some error-log (to stderr?) about the errors they encounter.

The next meeting is on Tuesday 27.3. at 12:15.
