Topics:

- The endurance test was successful: it revealed a memory leak in SM.c
- Marko will merge show_index and show_active_index utilities so that there will be only one utility, show_index that shows the contents of the active index file.
- There will be some additions to the implementation document.
- Everyone should add their comments to the final report.
- We try to finalize everything during this week, so that our project could be finished on friday.

The next meeting is on Friday 4.5. at 12:15.
